As disclosed in the results announcement in 3rd Quarter FY2015, the Audit Committee ("AC") noted that there had not been sufficient independent verification to confirm that the Group did not utilise the banking facilities (of up to RMB335 million) granted by Bohai Bank against the RMB335 million in pledge time deposits at the said bank:

"The Audit Committee ("AC") noted that the agreed upon procedures ("AUP") report had stated the following (see the announcement on Update On Independent Review Into The Losses Suffered By The Group released via SGXNET to SGX-ST on 18 September 2015):

- a. although Bohai Bank in Jinan City had in their written bank confirmation received by post, confirmed that the Group's bank balance as at 30 June 2015 was RMB 335 million (which was in the form of pledged time deposits), Bohai Bank's confirmation did not indicate whether there were any banking facilities granted to the Group and whether the Group had used any banking facilities by 30 June 2015;
- b. on the other hand, Management had advised that the RMB 335 million in time deposits in Bohai Bank had been pledged for banking facilities of an equivalent amount, and such arrangement was made for the Group to apply for letters of credit, when necessary, for the purpose of overseas procurement of soybeans. However, the banking facilities were not utilised as the Group had suspended the importation of soybeans;
- c. as a result, during the course of the AUP, there was a proposal to conduct a second visit to Bohai Bank to further seek clarification from Bohai Bank regarding the banking facilities, and also to obtain the bank statements from the bank on the spot, which was not achieved during the first visit to Bohai Bank due to a lack of sufficient authorisation documents required by the bank. However, Management took the view that a second visit to Bohai Bank was not necessary as the banking facilities were not utilised because the Group had suspended the importation of soybeans.

Although Management had advised that the Group's borrowings and debt securities were "NIL" as at 30 September 2015, the AC noted that there has not been sufficient independent verification to confirm that the Group did not utilise the banking facilities (of up to RMB 335 million) granted by Bohai Bank against the RMB 335 million in pledged time deposits at the said bank. The AC will direct the external auditors to pay special attention to this Bohai bank account during the year-end audit."

Arising from the insufficient independent verification to confirm that the group did not utilise the banking facilities granted by Bohai Bank against the pledged time deposits at the said bank, the AC has requested the in-coming auditors to follow up on this specific AUP.

The joint auditors physically visited Bohai Bank on 22 March 2016, and obtained the bank confirmation from Bohai Bank which stated that all fixed deposit accounts as at 30 June 2015, 30 September 2015 and 31 December 2015 requested as above were not pledged and not be restricted, and there were no bank borrowings, bank guarantees, and other contingent liabilities as recorded by Bohai Bank.

10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

As stated in the Company's announcement released via SGXNet on 18 August 2015, due to the anti-pollution issue in Linyi, the Group has temporarily suspended the production of our soybean products. The soybean processing is the Group's primary business which contributes towards about 90% of the Group's revenue. The Group continues to review the government's policy stand on pollution caused by power generating plants which is beyond the Group's control. As for the animal feed, the Group is continuing its production.

The industry in which the Group operates in continues to face soybean prices volatility, stiff competition price sensitivity and uncertainties arising from changes to China's challenging economic environment.

The Company will monitor and assess the situation before deciding whether to resume the Group's soybeans processing operation. The Company will also be on the lookout for any opportunity on the use or sale of the the land vacated by the Group's pig rearing business.
